

# TOUGHING IT OUT

## CAPTAIN'S LOUNGE

Swing open the doors, and the flavor is mostly stock, with a hint of modernization. The factory seats have been restored and restitched in houndstooth by Jim's Top Shop in Austin, Texas. From the captain's chair, a full bevy of Auto Meter Phantom gauges peeks through the rim of a Budnik billet steering wheel. A Vintage Air A/C system chills the cabin, and an Alpine stereo system doles out the tunes. Armed with an electrical engineering degree, T.J. made short work of wiring up the car himself.

## SHINY STUFF

Both fenders, a quarter-panel, the cowl-induction hood, and the grille are N.O.S. GM pieces scored off of eBay. Jeff's Resurrections in Taylor, Texas, laid down the paint and stripes.
